Everlasting Connectivity for the
Ever-changing Mining Industry

The mining industry is at yet another crossroads in its hundreds of years of history. To stay profitable amidst technology changes, the industry is embracing automation, unmanned operations, and decarbonization. At the same time, it must confront a multitude of internal and external challenges.

The Ever-changing Landscape in the Mining Industry

Internal Challenges

Changing terrains-
mining deeper underground,
digging farther into mountains

Changing conditions-
flooding, toxic gases, explosions,
mine collapses

Changing technologies-
automation, remote controlling,
decarbonization

External Challenges

Evolving cyberthreats-
As mining equipment gets connected,
cyberthreats are not affecting IT
only but also OT

Evolving energy diversity-
Embracing net zero calls for renewable
energy and more complex grid
management

Evolving mining commodity selection-
Fast deployment and adjustments to
absorb market fluctuations in mineral
demand
